Lookbook

statement piece furniture for outspoken interiors

Lisanne Meester is a designer and maker of statement piece furniture for outspoken interiors. In her designs she likes to show constructional elements and materials that others might try to hide, such as big bolts, material edges and concrete. She finds beauty in these and uses them as key features of her designs. Lisanne makes high quality pieces that can be used in bold interiors and retail spaces and creates true attention seekers for your space, brand or vision.

This look book is created to show the possibilities of her designs and to inspire you to use them for your own purpose.
